

Team,

Good morning. I was asked to provide permissions matrix.

- There will be 4 levels of security. Admin will create these levels and assign roles to the users.
 - a) Top clearance can add & edit any page or panel data
 - b) Can view but not edit form or document but can add or edit data
 - c) Can View all panels & Documents
 - d) Can only view specific panels & documents

1. Admin – Web -----Level a) **All forms all data**

1.1. Manager – Web -----Level a) **All forms all data**

2. Divers - Mobile App -----Level b)

Pick job from assigned list

Pick equipment & view history from assigned list

Use QR to fill in daily equipment check

View assigned personnel to that job

View Job related tasks

Pick & view dive table

3. Site Supervisor - Mobile App -----Level d)

View assigned personnel to that job

View Job related tasks

4. Client – Web -----Level d)

5.1. Owner-----Level d)

5.2. Contractor-----Level d)

5.3. Engineer-----Level d)
