Note - if you are a employee of a company that has already signed up and you have not received your account details please, contact your adminisrator

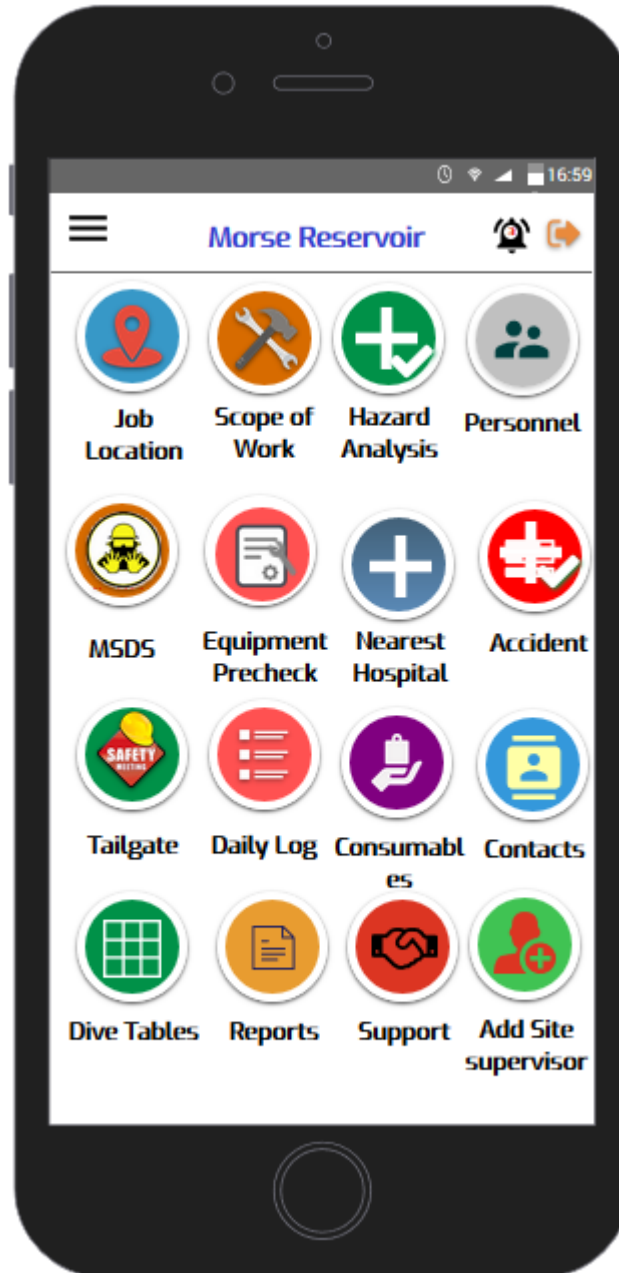

NOTE

One personnel can have multiple roles, site supervisor is from client- Dive supervisor will have access to add site supervisor from App.(name,email).

Dive supervisor will mark attendance and tailgate meeting.

Mobile users 1.Company crew 2.Site supervisor. A project can have multiple site supervisors.

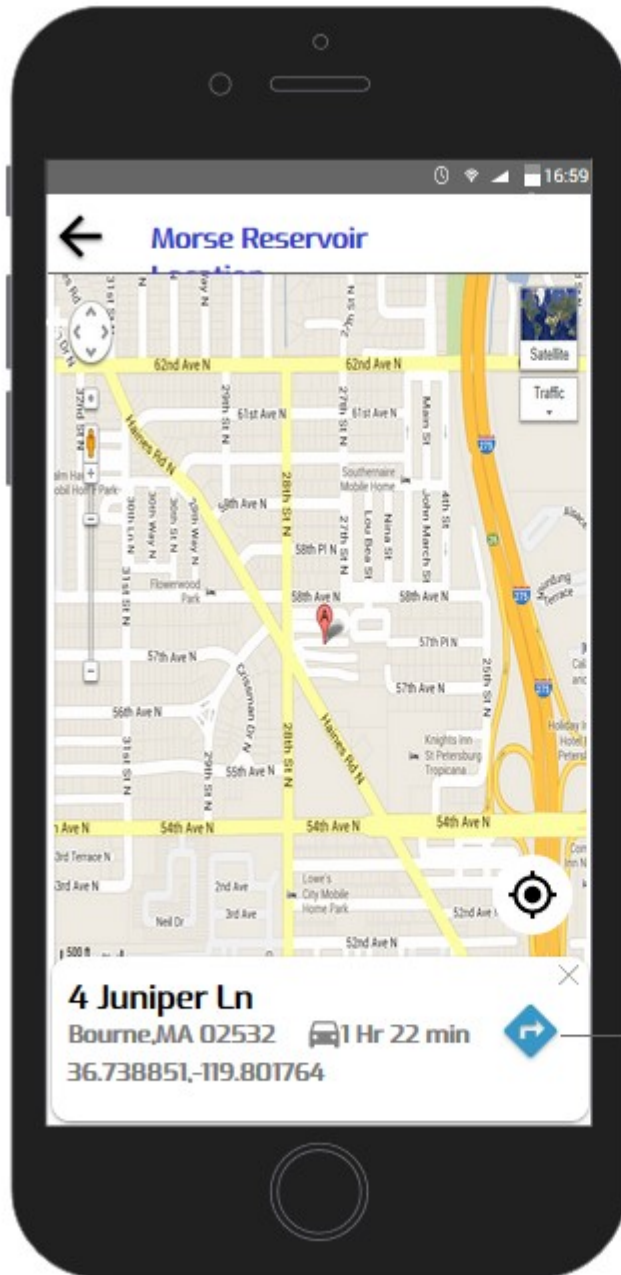

Any of these Icons can be rearranged by the mobile user for personal preference.

**Job
Location**

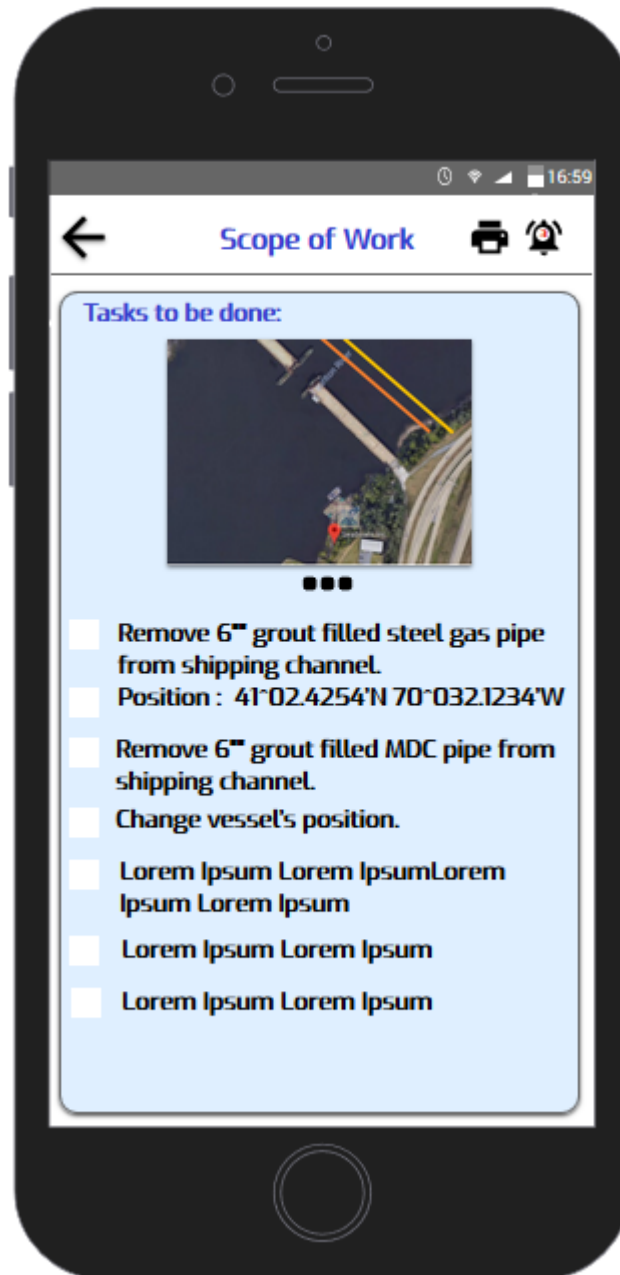

Icon from the main menu gets you this panel to show the mobile user where the job is and how to get there.

Clicking on this user will be able to navigate the distance from user's current location to destination

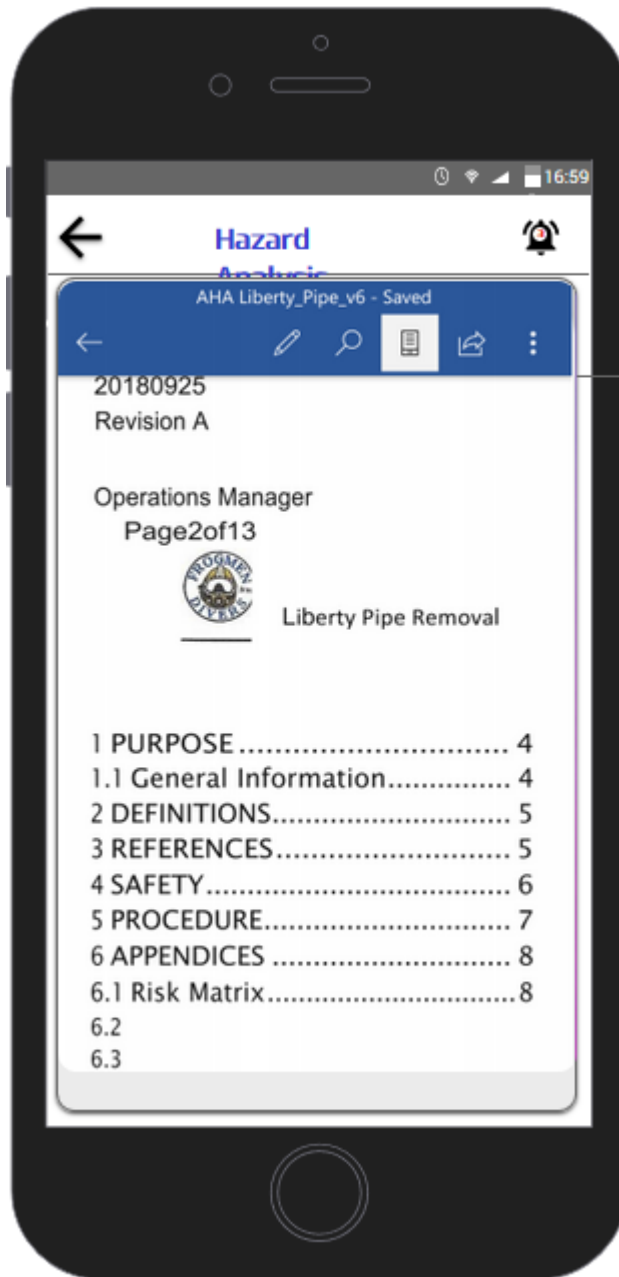

Icon from the main menu gets to this panel which shows step by step and a check off box when completed, to each aspect of the job.

NOTE
One image can have multiple descriptions. No check box for image. Check box for each description. No add scope of work from mobile

Icon from the main menu gets you this panel to show the mobile user All the expected hazards on the job.

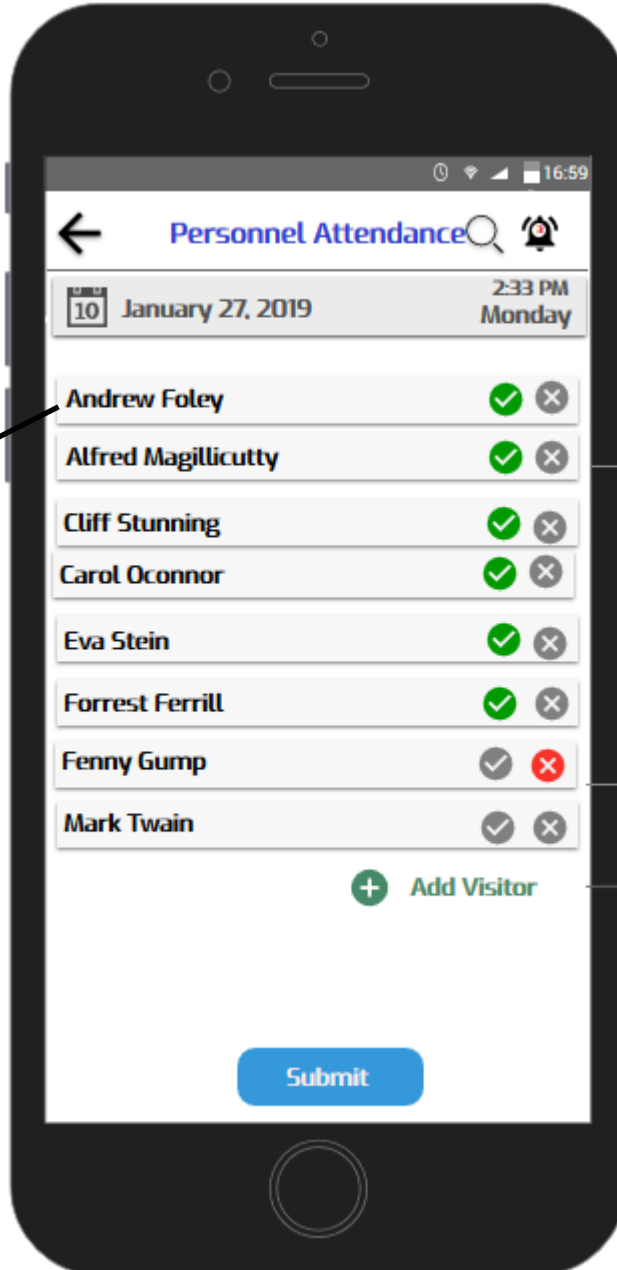

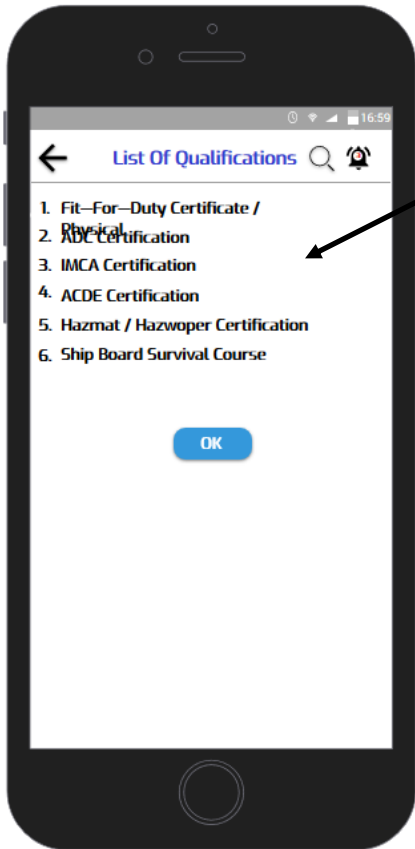

This Screen will have Responsive PDF document added by the admin for the user to review with all personnel involved while they are reviewing the same material on their app at the same time.

We can give option as "open with" and use mobile PDF reader as long as PDF reader can display that pdf when he is offline.

Personnel

Icon from the main menu gets to this panel which shows a list of personnel assigned to the job for daily attendance, Clicking on the person's name will bring up his/her certificates and qualifications.

This screen is only for supervisors

If a user wants to pull out from the job. Clicking on this will mark personnel as absent

Cross sign means, personnel is absent

On the click of add visitor, user can enter visitor's name.

MSDS

Icon from the main menu gets to this panel which shows a list of Hazardous materials expected on the job with it's descriptions and remedies as posted by the manufacturer. (required by OSHA)

Panel used to show Material Safety Data Sheets of the chemicals used on this particular job

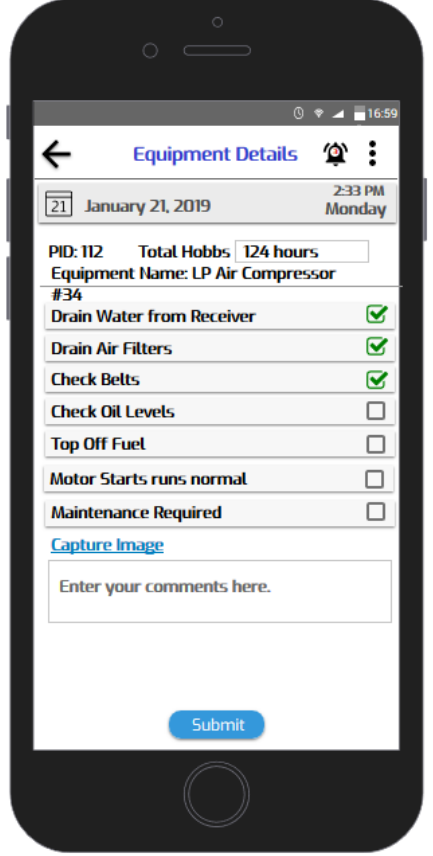

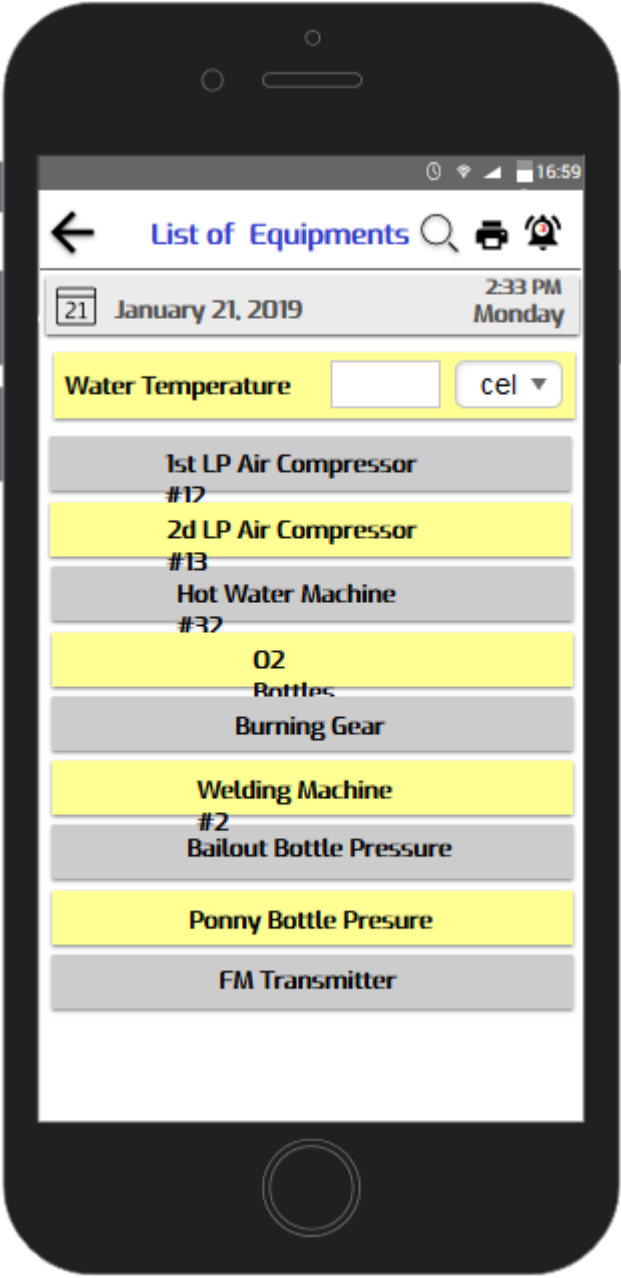

Even in offline mode, user can view this documents.

Equipment Precheck

Icon from the main menu gets to this panel which opens camera to capture QR code on each piece of equipment, bringing up a pre-check form to fill out by the mobile user. This updates the job safety folder in the cloud. If there is no connection to cloud, it is saved in the device and uploads automatically when in range. Any problems discovered at precheck is flagged to admin with pictures. Admin can send parts or replacement gear right away.

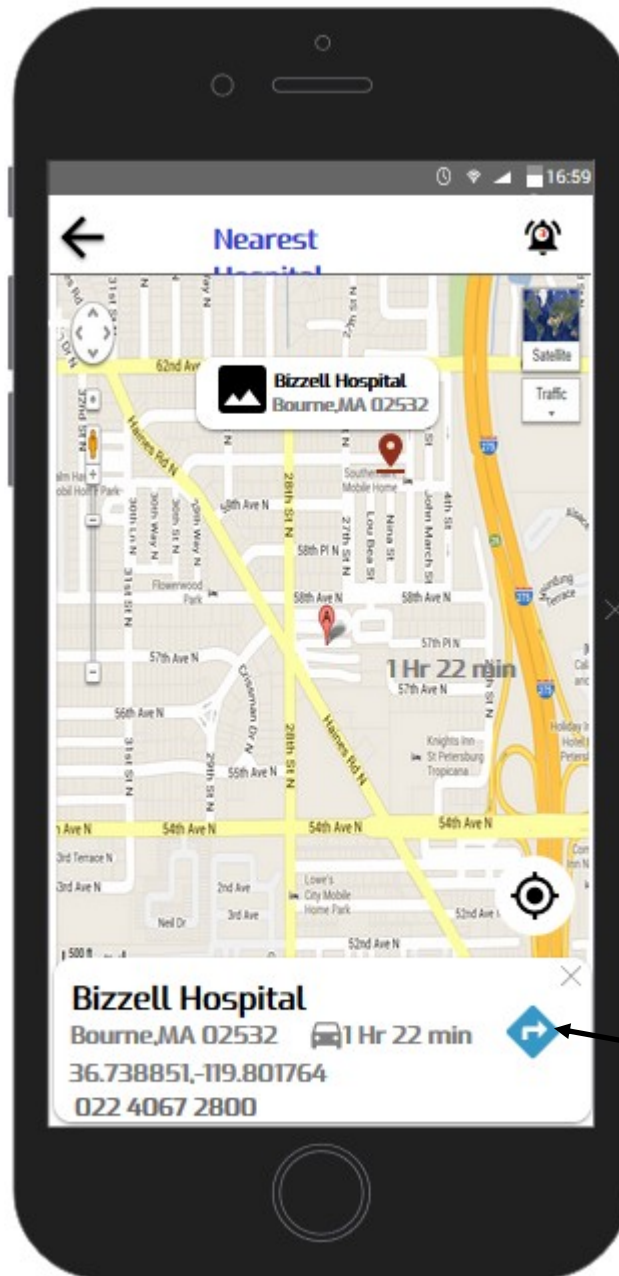

Note: This screen is created for Wireframe purpose to redirect to the specific QR Code In reality, it will open the Camera directly

**Nearest
Hospital**

Icon from the main menu gets you this panel to show the mobile user where the nearest hospital is and how to get there.

Clicking on this user will be able to navigate the distance from user's current location to destination

Icon from the main menu gets you this panel to show the mobile user an accident form . When persons name is entered it populates his/her medical specifics to be printed for EMT personnel and satisfies OSHA accident reporting requirements.

Icon from the main menu gets you this panel to show the mobile user a list to pick on safety subjects relating to the scope of work. (thereby satisfying OSHA regulations)

Here the list of personnel & visitors will be shown

No signatures required, take a picture of everyone in attendance

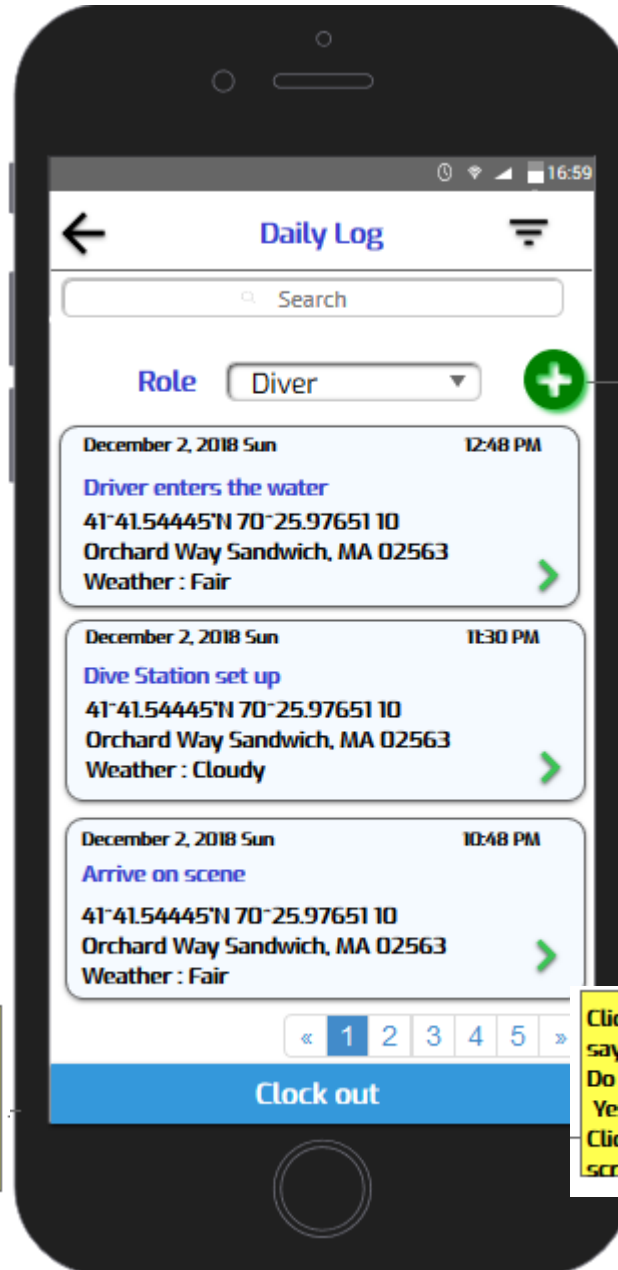

NOTE
Dropdown of Topics is
multiselect

User can select
one topic at one
time

Daily Log

Icon from the main menu gets you this panel . Perhaps the most important. This form is used via “voice to print” function of the device. It auto stamps time, date, place, weather and compiles an accurate moment by moment record of the days events which are published to the site supervisor for his approval each day. All this compiled into the cloud. Office manager can keep a “live” eye on the progress of the job without interrupting the operations.

To add a new log

If the app user is not logged out for the previous day, the next morning he will be notified by saying “You did not enter your logout time for the previous day. Do you want to do it now?”

Clicking on this, a pop will be displayed by saying.
Do you want to clock out from this job?
Yes, No [Button].
Clicking on yes , user will redirect to the login screen

Icon from the pervious panel gets you to the moment by moment entry panel where the data is entered. Notice the "LS" (Left Surface) "RB" (reached Bottom) "LB" (Left Bottom) "RS" (Reached Surface) "V" (Video) all when check box is clicked places a time stamp that the computer calculates diver's total bottom time . Entering the depth pulls up the proper table to guild the dive supervisor when to call back the diver and tell him his safety stops according to the table. By clicking on the depth number you get the next panel

The smartphone screen displays a log entry interface. At the top, there is a back arrow, the title "Enter Your Log...!!", a search icon, and a menu icon. Below the title is a large text area with the placeholder "Enter your log here!!". Underneath this is a "Depth Table" section with a depth input field containing the number "15" and a stopwatch icon. Below the depth table are five checkboxes labeled "LS", "LB", "V", "RB", and "RS", each followed by an empty input field. At the bottom, there is a "Total Bottom Time" section with an empty input field and the unit "hours". A green "Submit" button is located at the very bottom of the form.

Clicking on the check box for left surface will start the stop watch and surface time and will reflect in the "left surface time" field

On check of Reached Surface Time, stop watch will be stopped.

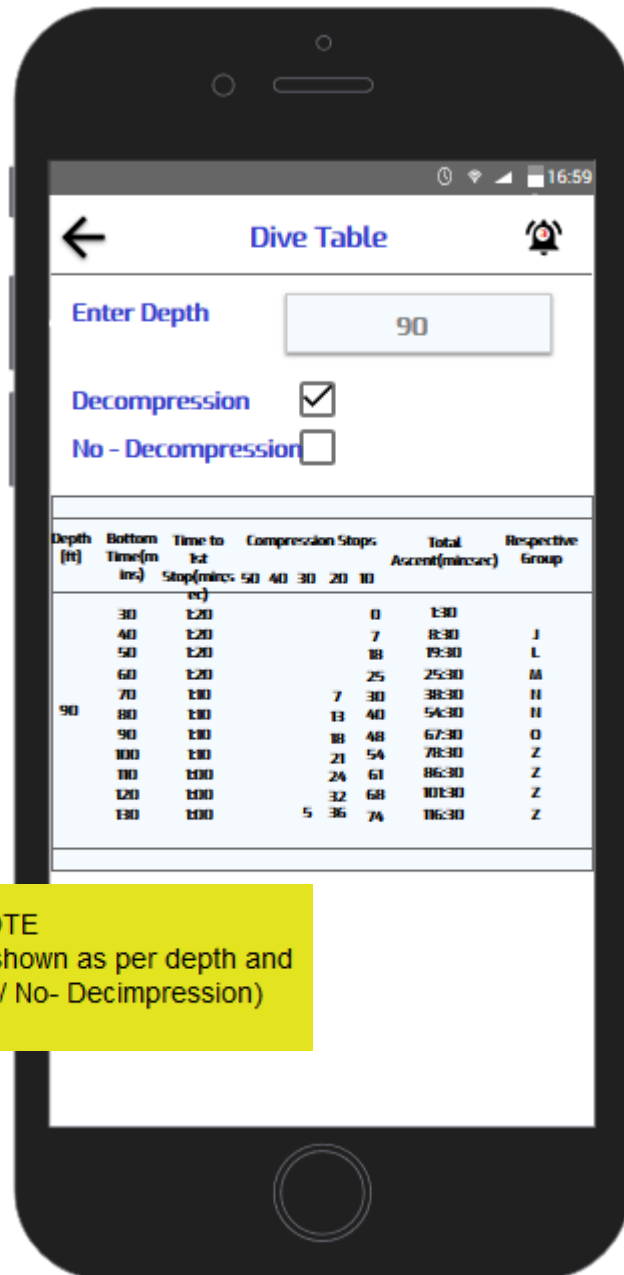

LS- Left surface
RB- Reached Bottom
LBT- Left Bottom time
RST- Reached Surface Time
V- video time stamp

Total bottom Time is difference between Reached Surface Time & Left Surface Time. Total bottom Time needs to be calaculated at background.

15

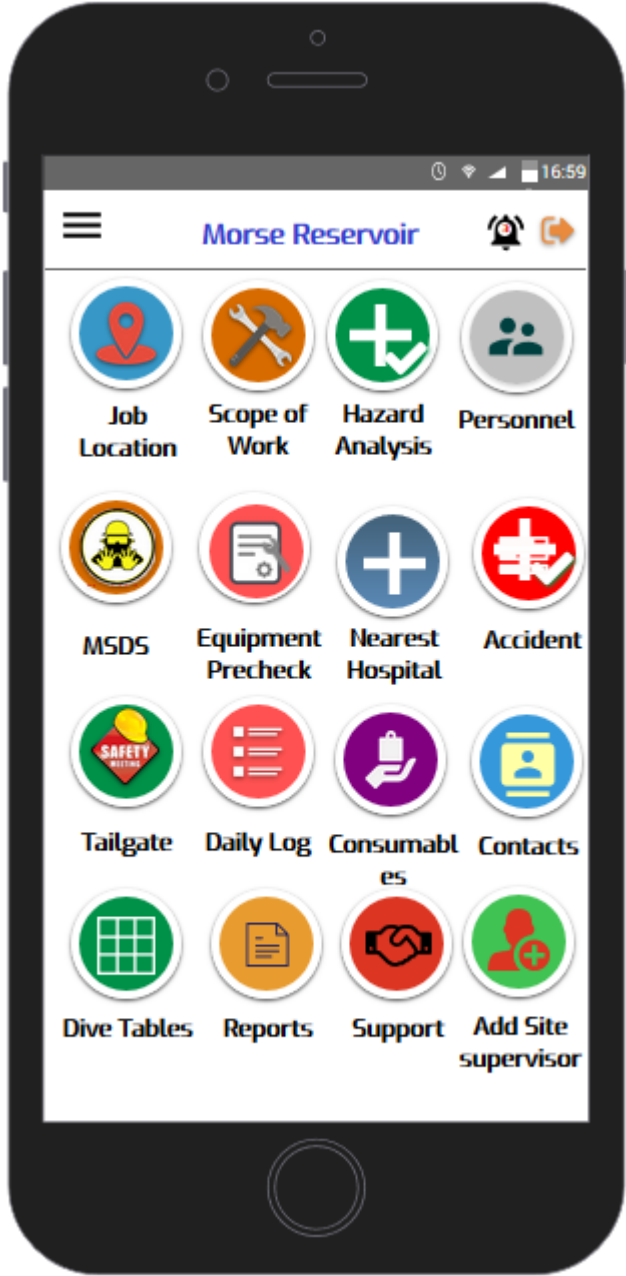

Icon from the pervious panel gets you to the proper Navy dive table for reference.

NOTE

Dive table need to be shown as per depth and type(Decompression/ No- Decimpression)

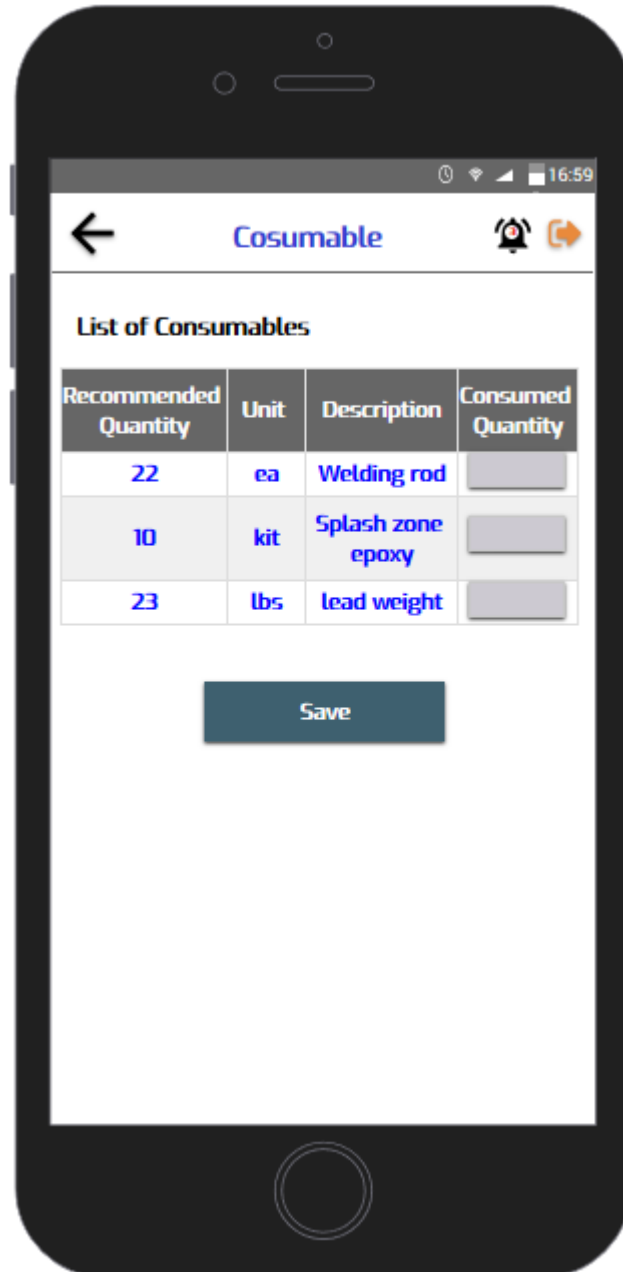

Back to the main panel

Any of these Icons can be rearranged by the mobile user for personal preference.

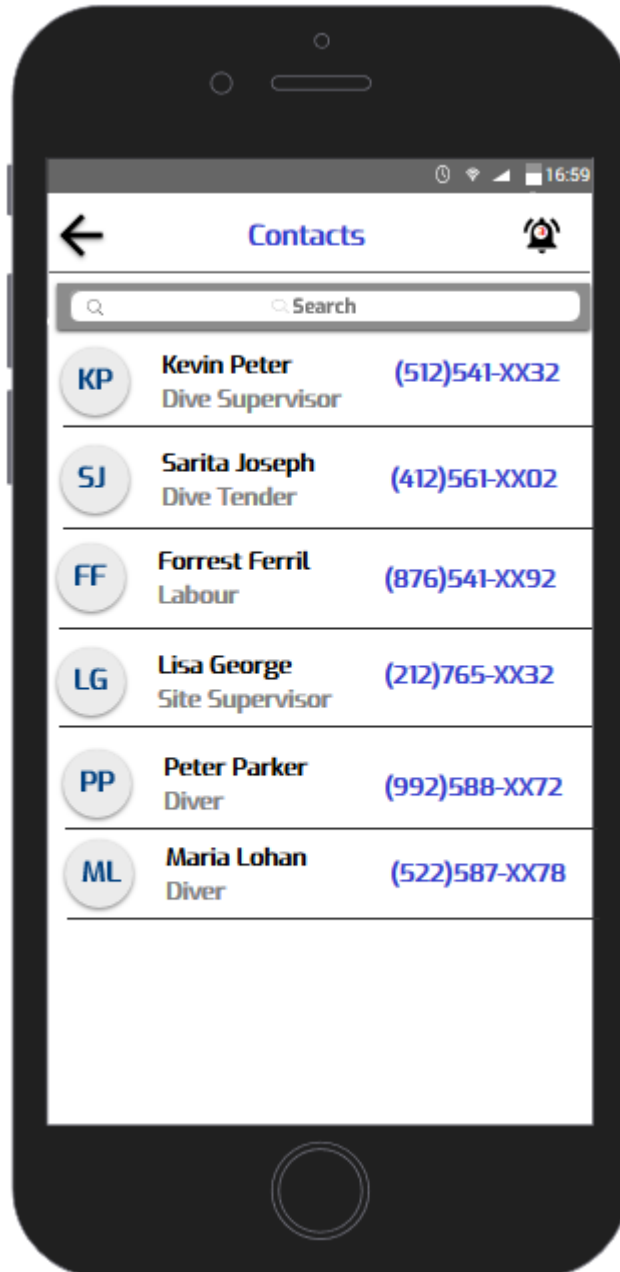

Icon from the main menu panel gets you to the Consumable list of parts & materials used on the job

Contacts

Icon from the main menu panel gets you to the list of personnel with their contact number

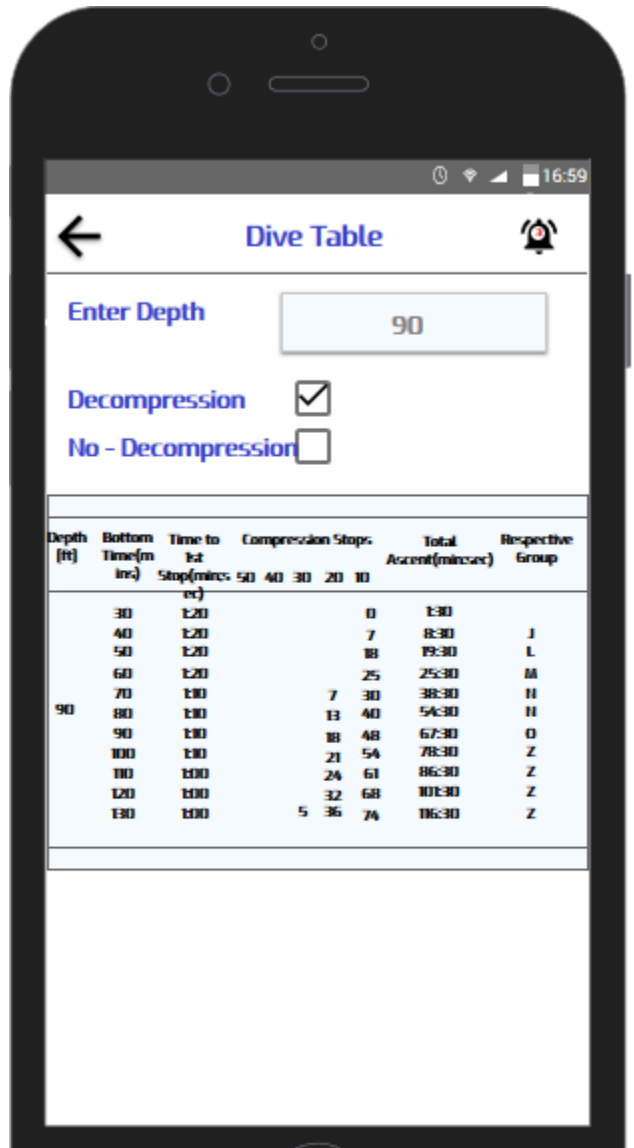

| Initials | Name | Job Title | Contact Number |
|----------|----------------|-----------------|----------------|
| KP | Kevin Peter | Dive Supervisor | (512)541-XX32 |

| FF | Forrest Ferril | Labour | (876)541-XX92 |
| LG | Lisa George | Site Supervisor | (212)765-XX32 |
| PP | Peter Parker | Diver | (992)588-XX72 |
| ML | Maria Lohan | Diver | (522)587-XX78 |

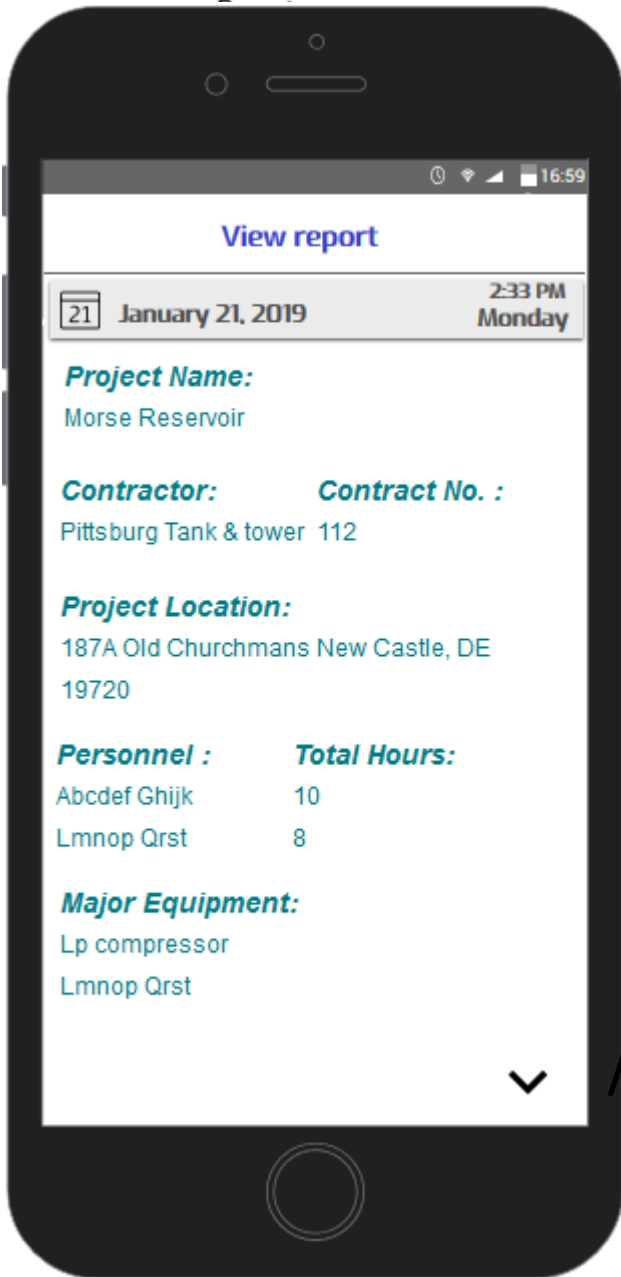

Dive Tables

Icon from the main menu panel gets you to the Navy Dive Table

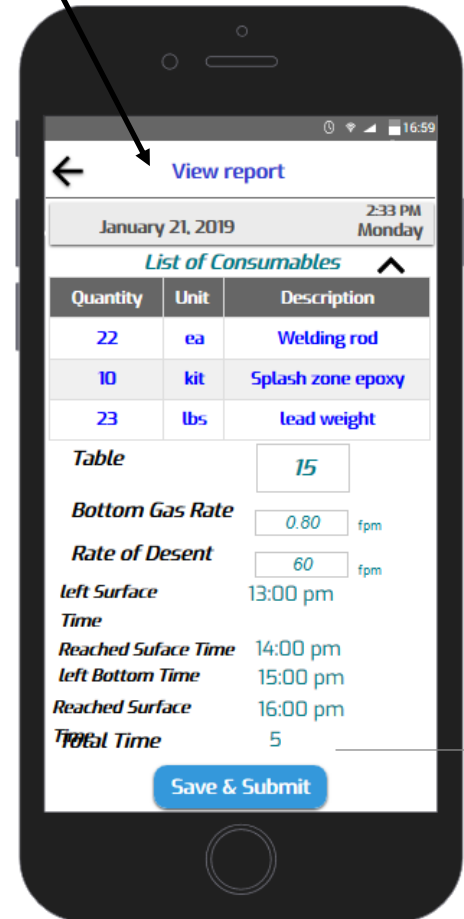

Icon from the main menu panel gets you to the Daily Report panel

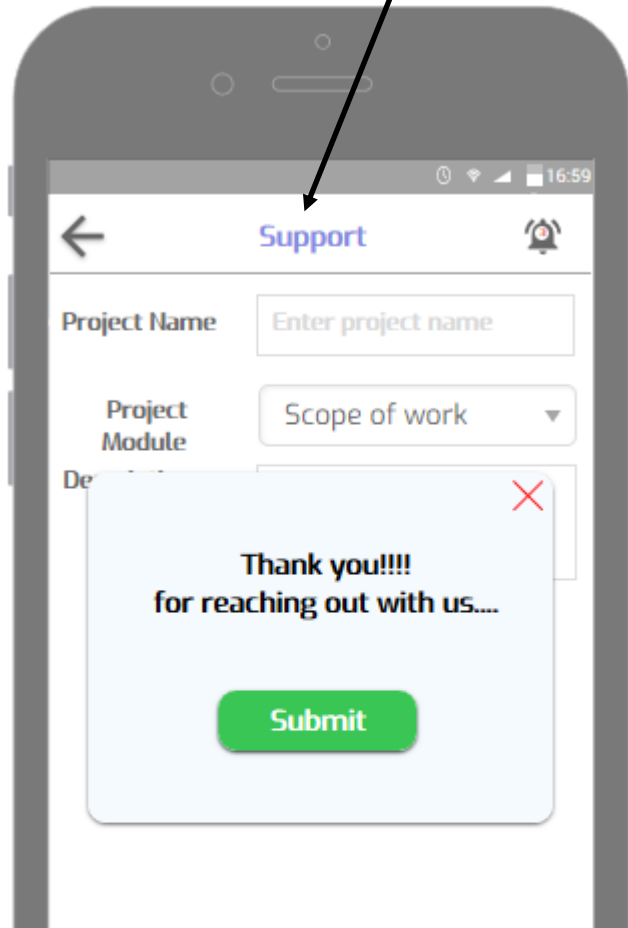

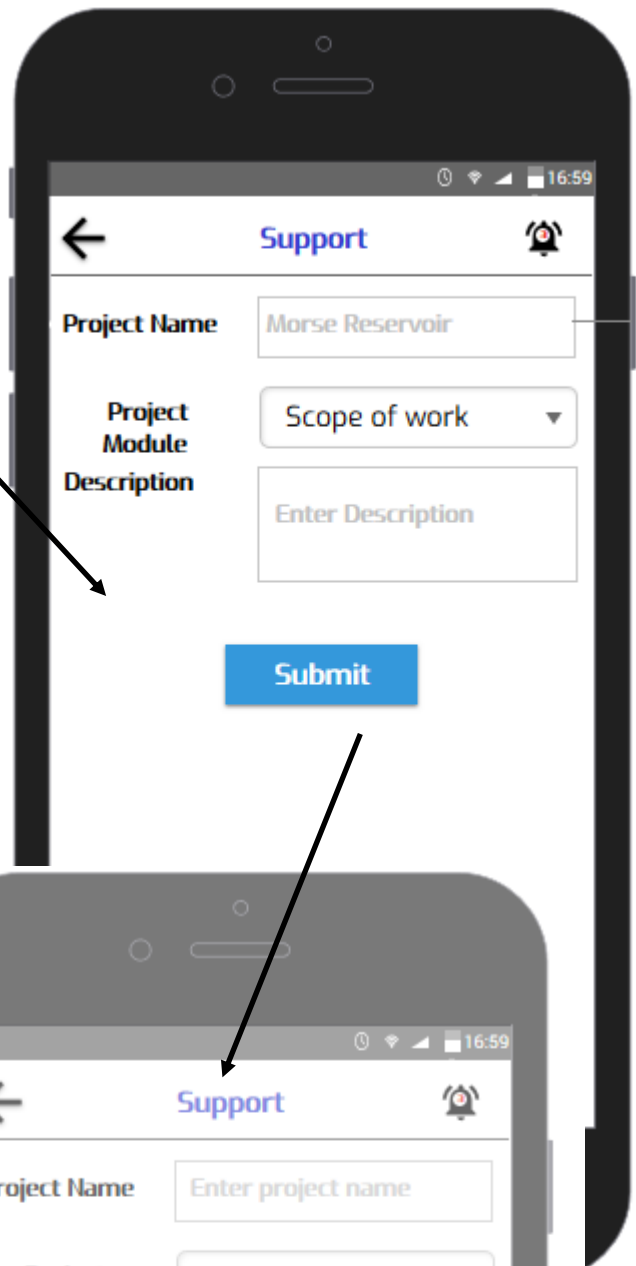

Dive Supervisor

Support

Icon from the main menu panel gets you to Admin support to the field operations

Icon from the main menu panel lets the Dive Supervisor add the owner rep Site Supervisor who would ultimately approve daily work.

A screenshot of a mobile application interface. The screen is framed by a black border representing the phone. At the top, a status bar shows signal strength, Wi-Fi, and the time 16:59. Below the status bar is a navigation bar with a back arrow on the left, the title "Add Site supervisor" in the center, and a notification bell icon on the right. The main content area has a light blue background and is titled "Add a site supervisor" in a darker blue font. It contains three white input fields with black borders, labeled "Name", "Email ID", and "Contact Number" in bold black text. At the bottom center of the form is a teal rectangular button with the word "Add" in white text.
